Education

Degree	Institute	Score	Year
B.Tech CSE	St. Martin's Engineering College	9.16 CGPA	2024–2028
Intermediate	Sri Chaitanya Junior Kalasala, Hyderabad	94.9%	2024
Class X	Kiran International School, Hyderabad	82%	2022

Personal Projects

•DSA Sheet – Coding Interview Preparation Platform *2026*

HTML, CSS, JavaScript, Vercel Live Demo | GitHub

- Designed and deployed a structured DSA preparation platform with categorized problems, topic-wise practice sheets, and interview-focused learning roadmaps.
- Organized coding problems across core Data Structures and Algorithms topics to support systematic coding interview preparation.

•FaceAttend Pro – Real-Time Facial Recognition Attendance System *2026*

Python, Flask, OpenCV, SQLAlchemy, SQLite/MySQL GitHub

- Developed a real-time facial recognition attendance system using OpenCV Haar Cascade for face detection and HOG/LBP-based feature extraction with cosine-similarity matching.
- Implemented automatic attendance marking with duplicate-prevention logic, configurable recognition thresholds, and attendance cooldown handling.

Technical Experience

•Independent Software Developer

Self-Initiated Technical Projects 2025 – Present

- Built and deployed a real-time facial recognition attendance system integrating computer vision, backend APIs, database management, student registration, attendance tracking, and administrative reporting.
- Developed and deployed a public DSA preparation platform with categorized problems, topic-wise practice sheets, and structured coding interview roadmaps.
- Maintained GitHub repositories using Git-based version control and documented project architecture, implementation details, and setup procedures.
- Solved 200+ Data Structures and Algorithms problems covering arrays, trees, graphs, dynamic programming, recursion, backtracking, searching, sorting, and related problem-solving techniques.

Technical Skills

Languages: Java, C++, C, Python, SQL

Data Structures & Algorithms: Arrays, Strings, Linked Lists, Stacks, Queues, Hashing, Trees, Graphs, Sorting, Searching, Binary Search, Two Pointers, Sliding Window, Recursion, Backtracking, Dynamic Programming

Backend Development: Java, Spring, Spring Boot, REST APIs, JDBC, Hibernate, JPA, Spring Data JPA, Spring Security, JWT, Maven, Microservices

Databases: MySQL, MongoDB, SQLite

Frontend Development: HTML, CSS, JavaScript, React

Developer Tools & Technologies: Git, GitHub, Docker, Linux, Postman, Maven

Core Computer Science: Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, Software Engineering

Areas of Interest: Java Backend Development, Full Stack Development & Data Structures & Algorithms

Positions of Responsibility

•Technical Member NDLI Club, St. Martin's Engineering College *2025 – Present*

- Contributed to technical activities and initiatives conducted by the NDLI Club.
- Supported technical and digital activities involving students and the college community.
